

## SAFETY INSTRUCTIONS:

1. Power has to go in the digilizer through a 50A Circuit Breaker.
2. Do not open the digilizer during operation as there is High Voltage inside the equipment.
3. Do not install this device near highly flammable liquids.
4. Disconnect the power source before servicing.
5. Keep system away from water or rain.
6. In case water is spilled in the stabilizer Shut off power at the main switch or circuit breaker immediately and unplug the equipment until serviced and approved for normal usage.
7. Service should be provided by Qualified Technician.

"At Future Technologies  
we don't see things the way they are,  
but the way they will be."
